

CUT YOUR COSTS

WITHOUT COMPROMISING QUALITY

Our classes are priced with cost effectiveness in mind. You get the same quality of instruction, at a significantly reduced cost per student. You'll save by reducing expense of travel, per diem, fuel, and salary to go to in-person classes. Most agencies can save over \$1,000 (for more in-depth classes) per student, per class.

When you add up cost for travel, hotels, per diems and class registration fees, in person learning is far more expensive. For the same quality of training, you can register more students for more classes with RTI. This will allow more of your personnel to be trained in the topics we cover.

IN PERSON CLASSES CAN COST UP TO \$1,500 PER STUDENT. WE HELP YOU TRAIN MORE STAFF FOR LESS.

By allowing more staff to be trained, such as patrol officers, they will understand what detectives and other specialized units will be looking; regarding evidence, when to call out the proper resources, how many resources are available at any given time, understanding cases that may have been overlooked, and leading to missed crimes because they didn't know that the information is critical.

CUTTING EDGE

LAW ENFORCEMENT TRAINING

The current climate is not always conducive to travel with localities in various stages of COVID-19. Add in budgetary constraints, travel restrictions and personnel scheduling and local training courses are much harder to do. Revelations Training & Investigations offers 100% online courses which are kept up to date with current law enforcement best practices and case law.

- On-line training that equals and surpasses in person training.
- Cost effective training without compromising quality to your agency and staff.
- Complete training anytime, anyplace, and without time restraints.
- Training conducted by P.O.S.T certified instructors.
- Knowledgeable instructors that teach their field of expertise.
- Proven techniques used by modern law enforcement officers.
- Provide training needed to investigate crimes occurring in your community.

EXPERT

BLOODSTAIN PATTERN ANALYSIS

Bloodstains found at crime scenes, are "witness" to the events that took place during the crime. Bloodstain pattern analysis is a scientific process that utilizes principles of DNA, pathology, and crime scene reconstruction to interpret what took place during a bloodletting event.

The information gathered from this analysis can provide insight to support or refute statements made by those reportedly involved. The aim is to provide what is possible and what is not possible based on the patterns observed at the scene.

Becoming a bloodstain pattern analyst requires more than a 40-hour course. The analysts at Revelations Training and Investigation have completed the rigorous coursework, mentorship, and research requirements put forth by the American Academy of Forensic Science Standards Board.

Our practitioners are members of the International Association of Bloodstain Pattern Analysts, the International Homicide Investigators Association, and the International Association for Identification.

Revelations Training and Investigations only works through law enforcement or legal counsel. They do not provide casework for private citizens. If you are interested in discussing an investigation with Revelations Training and Investigations, please contact us.

PREPARE

FOR THE MOMENT

We believe that investigators and analysts must have the most cutting-edge and complete training to be prepared for the moment. The moment that a suspect decides to make a confession or to say nothing. The moment that makes the difference between a suspect walking away or being held accountable for the crime they have committed.

Our mission is to prepare the officers, deputies, troopers, and investigators to be prepared for this moment. We do this by offering law enforcement training online accessible to all police staff with only an internet connection and a desire to be prepared. Our courses are designed to eliminate academic fraud by focusing on student engagement. All of our courses are self-paced and require attendees to complete scenarios, quizzes, and a final exam.

LET US HELP PREPARE YOU AND YOUR DEPARTMENT FOR THE MOMENT.

Contact RTI for group discounts. Let us show you what we can offer your agency and how we can fulfill your training needs.
